

For more than 100 years, we've created smarter workplaces that solve customers' business issues. We bring together the best strategies, products and services that help people work more effectively, today and tomorrow.

When Omnicare was challenged with **moving five different departments and personnel into one space**, under an **aggressive time frame**, they partnered with LOTH for a turnkey solution. Omnicare is the largest U.S. provider of professional pharmacy-related consulting and data management services.

Challenge:

- **consolidate people and space:** move five departments and personnel into one space
- **aggressive timeframe:** project had a short turn-around
- **ensure employee satisfaction:** assess each department's product needs

Solution:

- **planning:** design and installation services
- **project management:** relocation and move management
- **repurpose the old:** recommended solutions for refurbished product
- **environmental responsibility:** integrated a green solution for all of the systems furniture
- **economy:** procured very attractive pricing on close-out items for 19 private offices

LOTH
provides a
single-source
solution
for Omnicare

Result:

- **LOTH as a single-source provider:** resulted in a time savings for Omnicare and a project completed on time
- **maximization:** utilized a smaller real estate footprint
- **purposeful work areas:** provides each team member with an appropriate and functional workspace
- **integrated technology:** uses technology to enhance collaboration and productivity
