**LOTH, Inc. Announces Leadership Change
in naming Lori Hollandsworth as the New
Columbus Vice President of Sales –
Education, Healthcare and Service**

Former General Manager of LOTH's SWS (Strategic Workplace Solutions) division, Lori Hollandsworth, has been named the new Vice President of Sales – Education, Healthcare and Service for LOTH AFT in Columbus.

As VP of Sales, Lori is a key leader who oversees several teams within the organization, leading strategic development, business planning and overall market growth – centered around sales growth of vertical markets.

Lori has enthusiastically jumped into her role and attended her first NeoCon Conference this year in Chicago with her team. She has worked within the Healthcare industry for over 14 years prior to joining LOTH. That industry experience, combined with product knowledge, makes her a great resource for her team and their clients.

She commented, "I am grateful for this opportunity and excited to bring this experience coupled with my passion for healthcare to my new role. I am up for the challenge of learning more about the Education market and already see so much potential for growth in this area."

Lori has previously held facilities planning and project management positions for successful corporations including Sterling Commerce and Planes Commercial Services. Most recently, she owned a small business for 10 years that provided contracted Medical Equipment Planning, FFE Planning, Transition Planning and Project Management support for facility-related projects. Lori holds a bachelor's degree in Business Administration and Marketing from Franklin University.
