Bivi®
Powerful Simplicity

Bivi offers it all: a fully-loaded desking system minus the complexity. One frame. Two legs. One assembly tool. Countless work-flow options. Configure Bivi in minutes. For individuals or teams. Sitting or standing. Workstations or lounge settings.

With its many colors, fabrics, and accessories, Bivi provides a palette of self-expression for every employee. And power is conveniently built in.

Designed to Adapt
Fast

Enterprises must adapt. Spaces must adapt to people and projects. Bivi fits every assignment. Like its namesake, bivouac, Bivi can be set up and taken down literally in minutes. And there's no need to call a technician. Change your mind then change your space.

Bivi Looks As Good
As It Feels

Bivi is designed for people who want their tools to look as good as they feel. Solid, practical, and refined. And you have the control. Over the look, the feel, the flow.

Make Your Space Your Own

When you find something that works, you want more. And there's so much more with Bivi. Panels for privacy. Storage for stuff. Racks for bikes. Cushioned seats. Arches. A planter. A foot shelf. A hood canopy. Step away from sameness. Into something distinctively yours.

Where Does Talent Want Power? Built In

One of Bivi's great strengths is built-in power and media options. Lots of them. One-, two-, and four-circuit power solutions. Table-top accessory powerways. Laptop and large-display mounting options. Integrated. Discreet. Convenient.

Elevate Your Thinking

People want to take care of themselves. Employers want to take care of their people. The Bivi Height Adjustable Desk adds another option for postural change to the Bivi collection. For those who want to sit less and stand more, it's a solid, smooth-flowing solution.

Dual Height
Bivi

Sitting. Standing. Roaming. Dual Height Bivi gives your team workflow options. And as the team changes, Bivi can too. Effortlessly. With Bivi, it's always up to you. Or down.

Bivi Team Bundles:
One Spec
Done

Bivi Team Bundles simplify the system even further. The Bivi Team Table and Bivi Team Theater are ready-made settings that create instant workflow. Choose the application. Pick the size. Specify surface materials and add optional power. Let the flow begin.

The Bivi Collection

Bivi Desking System

Built on one ingenious frame, the Bivi Desking System accommodates every work style: solo, collaborative, sitting, standing, and height-adjustable. Easy to specify, easy to build, and easy to accessorize, Bivi desking can be powered up in minutes for teams that can't wait to get at it.

Bivi Table for One

Solid, modern, and modular, Bivi Table For One can be effortlessly deployed for solo work. Or, quickly adapt for teams by adding a second top or connecting them together. Personalize with accessories, from screens and shelves to racks, trays, and powerways.

Bivi Table for Two

Requirements change. Bivi expands and contracts as they do. Build from two by adding more workstations and heights, all with one easy-to-use tool. Then build on what you've built with accessories. Desks aren't just desks anymore.

Height Adjustable Desk

What do users want in a height adjustable desk? Maximum high-to-low range. Many widths and depths from which to choose. Sturdiness, power, and visual appeal. Have it all. With Bivi.

Bivi Team Bundles

One spec. Done. The Bivi Team Table and Bivi Team Theatre are ready-made settings that create instant workflow. Choose the application. Pick the size. Specify surface materials and add optional power. Let the flow begin.

Bivi Rumble Seat

How can a lounge and a desk come together? With Bivi Rumble Seat. Get comfortable. Spark the conversation.

Bivi Trunk

Store in style. Bivi Trunk is the perfect home for project materials or personal items. With nearly six square feet of added surface space, Trunk can stand gracefully alone or extend a Bivi Table.

Bivi Depot

Store your stuff. Bivi Depot supports up to 200 pounds. Choose from two- or three-high versions, with adjustable glides for uneven floors.

Bivi Screens

Create a sense of personal space with Bivi Screens. The handy magnetic and tackable boards can be used for photos, inspiring quotes, and whatever else makes your space your own.

Bivi Bike Hook

Park your ride. Bivi Bike Hook mounts on the wall or attaches to Bivi Table so bikes stay up and away from office traffic.

Bivi Board Rack

Snowboards. Longboards. Vintage skateboards. Now they have a home at the office. Bivi Board Rack keeps your wheels close at hand.

Bivi Accessory Power

Simple. Discreet. Convenient. Available with power and USB outlets, Bivi Accessory Power sits on your desk top. Available in a variety of colors to offer a palette of expression.
