

Uncomplicated support and fluid movement

Adding another screen to accommodate user collaboration and comfort has never been easier. CF Series Intro is a sleek, simple monitor arm designed to offer users flexibility and ease while improving their productivity and maximizing worksurface space. Available in both single and dual monitor applications, CF Series Intro features seamless precision to accommodate a wide variety of user preferences.

With a sleek design and advanced features at this price point, CF Series Intro makes comfort available to all:

- Supports both single and dual monitors
- One-touch monitor adjustment
- Flat panel monitor easily rotates for portrait or landscape viewing
- CF Series Intro Single provides up to 13.2" of vertical adjustment and 23.7" of functional focal length
- CF Series Intro Dual with Universal sliders provides up to 13" vertical range and up to 16" of functional focal length
- Arms support monitors up to 32" and 2.2–20 pounds per monitor
- CF Series C-Clamp and CF Series Intro Dual C-Clamp accommodates worksurface thickness up to 1.5"
- CF Series Intro Dual Assembly is standard with Universal sliders
- C-Clamp and through mount bracket options
- Storage depth of less than 3" from the back of the worksurface when fully retracted
- Quick-release VESA plate makes changing monitors easy
- Integrated cable management keeps cords out of the way and off the worksurface
- Universal Slider Bar Tilt Heads are compatible with CF Series Intro, CF Series, and CF Series Modular

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle; from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions and results are communicated in an annual Corporate Sustainability Report.
